

REMARKS

Several minor errors have been corrected in the specification. A typographical error was corrected on page 3 to clarify the subject matter of the present invention. Support can be found generally in the specification and claims as originally filed. Particular support is found on page 3, lines 17-24. On page 48, the name of a compound was corrected. Support for this amendment is found on page 50, line 3. On page 49, in formula VII, an obvious typographical error was corrected. One skilled in the art would have recognized the error, and its correction would have been readily apparent.

Claims 1 and 9-31 were canceled and claims 32-77 were added. Minor amendments were made to claims 2-8. Support for these amendments and new claims can be found in the original specification and claims. Care has been taken so that no new matter has been added. Applicants now await an action on the merits.

Please grant any extensions and charge any additional required fees to our deposit account 06-0916 if necessary.

Respectfully submitted,
